

## DANCE STUDIO – BALLET BARRE CONFIGURATIONS

FIRST THING YOU NEED TO DO IS SOURCE YOUR BALLET BARRE FIXINGS AS THIS WILL ALLOW YOU TO WORK OUT THE SIZES YOU NEED

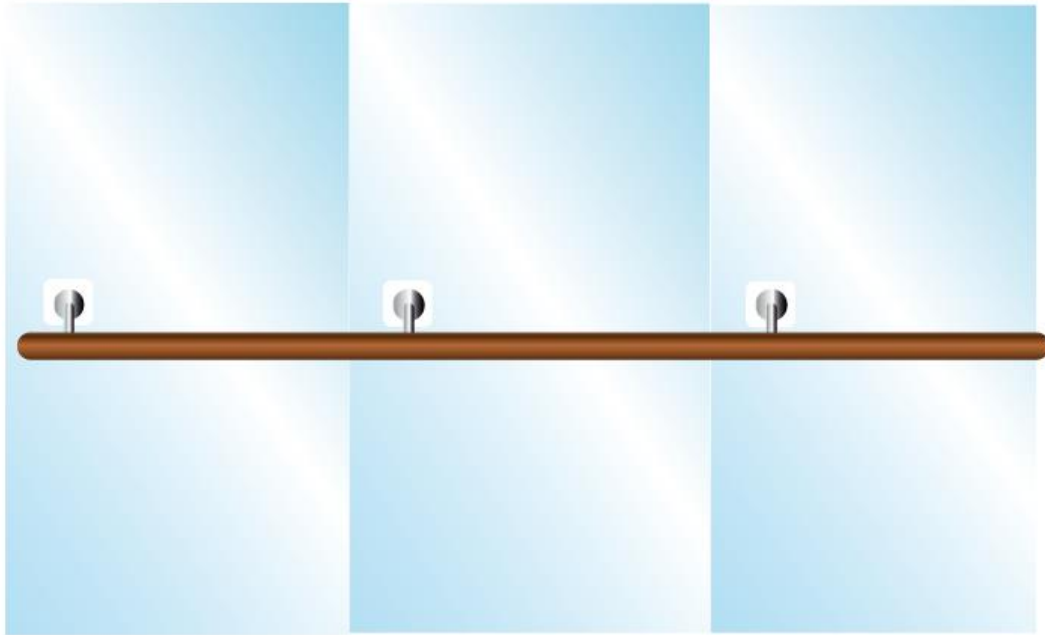

Option 1 – simple and effective and easy to measure. Recommended with adhesive or holes and screws

Option 2 – simple and effective and easy to measure. Recommended with j channels or adhesive but also suitable with holes and screws

Option 1 – simple and effective and easy to measure. Recommended with adhesive or holes and screws

Option 3 – More complex to measure as you will need to provide the size and locations of the cut outs. Recommended with adhesive or j channels – adhesive is easier to instal in terms aligning the cut-out locations.
